Leading AI Adoption

Executive Track

Duration	1 day
Format	Executive workshop + working session
Prerequisites	Leadership role (engineering or business)
Audience	Engineering and business leaders accountable for AI adoption outcomes

OUTCOME

Design an adoption plan grounded in evidence: leader mandates, enablement formats, surplus reinvestment, and honest measurement.

WHAT YOU'LL DO

- Write a leader mandate with real measurement attached
- Pick enablement formats with evidence behind them — and skip the ones buyers usually get wrong
- Draft a phased adoption plan for your organization in the working session

HOW IT RUNS

1. The mandate
2. Evidence & formats
3. The phased plan
4. Surplus reinvestment
5. Story & commitments
